SHOW SCHEDULE & REGULATIONS

The show will be governed by the standard rules and regulations of the American Rose Society. The final authority for a rose show is its own schedule; it should be followed as printed. However, when ARS Awards, Certificates, other than Ribbons, are in competition, the rules governing those must be followed or the judges must decline to give the awards. Competition is open to all rose growers regardless of residence; exhibitors need not be members of any rose society.

(Please note exceptions to this rule within the Rocky Mountain District Challenge Classes.)

Entries for Division II Section A1, F17, G21 will be placed in alphabetical order for judging of Queen, King and Princess. All other classes must be placed on the exhibit tables grouped by variety name because they will be judged against perfection, not against each other. All horticultural entries are to be shown in clear glass containers provided by the exhibitor. Challenge class "Rose in a Bowl" the bowl will be provided by IRS.

1. Only one person or one team from one garden may make one entry of a variety in a Class. Duplicate entries will be disqualified. All blooms in specimen and challenge classes must have been grown in the exhibitor's own private outdoor garden. Potted miniatures must be grown by the exhibitor, not necessarily outdoors.

2. All specimen roses exhibited must be correctly named on the entry tags provided by the Society, and entered according to the following schedule. Entry tags should be filled out entirely by the exhibitor and left unfolded for Classification. All exhibitors must be pre-registered at the entry information table, located in the entry adjacent to the preparation area.

3. Rose varieties entered must be registered with the American Rose Society in the "Handbook for Selecting Roses" or listed in the ARS database available at rose.org.

4. The placement of all entries will be handled by the Placement Committee, except for Challenge and Design classes. They will be placed by the exhibitor. No exhibitors will be allowed on the show floor during placement of roses, unless invited by Placement Committee to assist.

5. Judging will begin at 9:15 a.m. Only judges, clerks and necessary personnel will be allowed on the show floor during judging. Judges will be ARS accredited judges invited for this show by the RMD Judges Chair.

6. Judging will be based on a comparison of approach to perfection of the individual variety. Hybrid Tea, Miniature and Miniature Flora that have HT form is usually $\frac{1}{2}$ to $\frac{3}{4}$ open. Floribundas and most Old Garden and Shrubs are best at fully open form.

7. Grandifloras and Hybrid Teas shown as sprays of inflorescences should display all blooms in all stages of development where the variety permits.

8. Specimens in fully open classes must be fully open and the stamens must be easily visible.

9. Length of stem should be in proportion to size of bloom. Containers should be proportionate to stems. Foliage should be clean and free of spray residue.

10. Climbing sports must be exhibited in the class of their bush counterparts.

11. Entries in any class calling for one-bloom-per-stem must be shown without side buds. They may have been disbudded manually or may have grown naturally without side buds.

12. In order not to offend, American and other national flags may **not be incorporated** into any competitive designs, or be used as underlayment, swags, or the like.

13. Due caution and care will be exercised in safeguarding exhibits and materials furnished by exhibitors. However, we cannot assume responsibility for injury or loss to persons or property.

14. Blue ribbons, or other ribbons, will be awarded to each variety considered worthy where merited. No award is required for any rose or class. The final decision will be by the judges.

15. Wedging material will be permitted for any rose stem. Discretion in its use is advised to avoid distraction from the rose. It should not extend above the top of the vase. Saran wrap will be available at the prep. table day of the show.

16. Be sure to write “**AG**” on the entry tag for any arrangements **arranger grown**. Name of roses must be on the tags. Outdoor grown and listed in the ARS database will receive ARS distinction.

17. Roses and other plant materials used in the design should be in scale to the design size. Accessories and other flower varieties permitted unless specified otherwise. Roses should be the predominate flower.

18. All classes are open to all arrangers in the design class except for the Novice and Judges’ classes.

19. All entries must be picked up at 5:30 p.m. Facility use ends at 6:00 p.m.

20. All exhibitors will be expected to assist in the operation of the show. And clean-up of the show at 5:00 p.m.

The Idaho Rose Society was organized in February 1978. George Cleveland was the first President. Bea Roper and Don Street were founding members. Thomas Davis deeded a tract of land to the city November, 1907 as a memorial to his wife, Julia Davis. In 1932 five more tracts were deeded to the city and this is where the Rose Garden is located today. As the city's oldest park, Julia Davis features a wide array of mature trees. A brochure is available to lead you on a [self-guided tree walk](#) through the park. It is one of the riverside parks in the "[Ribbon of Jewels](#)" named for prominent local women.
